Skills & Experience

As an aspiring full stack developer I've developed skills in both frontend and backend coding. Although my experience measured in time is somewhat limited, my skills include but are not limited to:

- Git
- HTML
- CSS
- Bootstrap
- Javascript
- JQuery
- Express Servers
- Server-side APIs
- Relational Databases
 - MySQL
- Object-Relational Mapping
 - Sequelize
- MVC Architecture
 - Express-Handlebars

Work History

Prestige Autobody
Manchester, NH

Autobody Technician (Apprentice)
2017 - 2020

Started in the paint department. Responsibilities included:

- Inspecting freshly painted panels for quality control purposes
- Wetsanding and buffing freshly painted panels
- Paint correction on existing paint jobs
- Prepping parts for paint

Proceeded to the blueprint department. Responsibilities included:

- Tearing down vehicles prior to repairs
- Assessing vehicles' secondary damage with team coordinator for supplemental estimates
- Organizing and storing parts removed from vehicles

Moved to an apprenticeship position under an A level technician. This position built upon my previous blueprint position. Responsibilities included in addition to those previously mentioned:

- Small to medium size metal/filler repairs
- Blocking of primer
- Removal and preparation of weld in panels (some structural)
- Some frame machine work
- Realignment of bolt in panels and doors
- Final assembly of vehicles after repairs
- Scanning and clearing of vehicle fault codes

Wayne Chaloux's Custom World & Autobody, Signs & Graphix
Somersworth, NH

Autobody Technician
2014 - 2017

Started sweeping the floors and washing cars, but quickly worked up to repair and replacement work.

Worked on the floor but also became well versed in the office. Responsibilities included:

- Documenting photos for estimates and supplement claims
- Writing preliminary estimates and supplement claims to be forwarded to the office
- Consulting insurance adjusters on supplement claims
- Order and check-in of parts
- Removal of all necessary parts prior to repairs
- Some meta/filler repairs
- Some installation of weld in panels, including rear quarter panels and bed sides.
- Reinstallation of all necessary parts post-repair

I-Car Training

Gold Class Non-structural Technician (Annual renewal due 7/21/2021)
